

### *NOT LIVING IN NSW*

*If you live in Vic but travel and work in NSW, you just need to have completed RSA in your home state: LIQCON RSA training is fine for this*

*The L&G NSW website says:*

*“If you intend to work in a venue in NSW but you permanently reside in another State or Territory, you may work in NSW so long as you have completed an interstate RSA within 5 years. However, if you permanently move to NSW, you must complete the online NSW RSA bridging course and obtain a competency card to work in NSW. “*

### *LIVING IN NSW*

*If you live in NSW and want to work in NSW you either have to complete the course through an approved RTO and have an Interim Certificate issued by the RTO (and subsequently obtain a Competency Card) LIQCON is NOT an approved RSA provider in NSW*

*Or*

*Do the bridging course. The L&G website says:*

*“You must hold one of the following approved interstate RSA certificates:*

*QLD, WA, SA or TAS - a national RSA Statement of Attainment issued within the last five years.*

*VIC, ACT or NT - a national RSA Statement of Attainment or RSA refresher certificate issued within the last three years.”*
